SINGING OF MILTON'S PARAPHRASE OF PSALM CXXXVI

tune NUREMBERG

Dale Cornell Carr, College Organist

(The audience is requested to rise and join the Glee Club in the singing)

Let us with a gladsome mind
Praise the Lord for He is kind;
For His mercies aye endure,
Ever faithful, ever sure.

He with all commanding might
Filled the new-made world with light;
Let us blaze His name abroad
For of gods He is the God.

Let us therefore chorus forth
His high majesty and worth;
For His mercies aye endure,
Ever faithful, ever sure.

(Following the custom started by President Tucker, certain verses of Milton's Paraphrase of Psalm-136 have been sung to the stately tune Nuremberg at nearly every Dartmouth Commencement since 1895)

SINGING OF AMESBURY

Dartmouth College Glee Club; Paul Robert Zeller, Director

(Records from 1839 show that 'the Senior members of the (Handel) Society, according to an ancient custom, sang Amesbury from the Village Harmony' at the last chapel of the year, called Sing-Out. This custom, it was noted in 1854, had been followed 'for over fifty years.' The verses were written by Charles Wesley in 1750, and were set to the tune Amesbury by Samuel Arnold of London, probably also in Eleazar Wheelock's time. Amesbury has continued to be a feature of Dartmouth Commencements down to the present, either sung by a choir or played from the Baker Library tower by the Class of 1879 Trumpeters. The Glee Club sings an arrangement by Homer Whitford)

XV

VALEDICTORY TO THE SENIORS

John George Kemeny, President of the College

XVI

SINGING OF MEN OF DARTMOUTH

Words by Richard Hovey '85; music by Harry Wellman '07

(The audience is requested to rise and join the Glee Club in the singing)

Men of Dartmouth, give a rouse
For the college on the hill!
For the Lone Pine above her,
And the loyal sons who love her,
Give a rouse, give a rouse, with a will!
For the sons of old Dartmouth,
The sturdy sons of Dartmouth,
Though 'round the girdled earth they roam,
Her spell on them remains;
They have the still North in their hearts,
The hill-winds in their veins,
And the granite of New Hampshire
In their muscles and their brains.
